

An International Leading Smart Health Water Purifiers Dispensers and  
Air Purifiers Manufacturer

## Product Brochure

- Water purifier & dispenser
- Air Purifier & humidifier
- Hydrogen Water Bottle & Machine
- Household Care Sterilizer Machine

# A

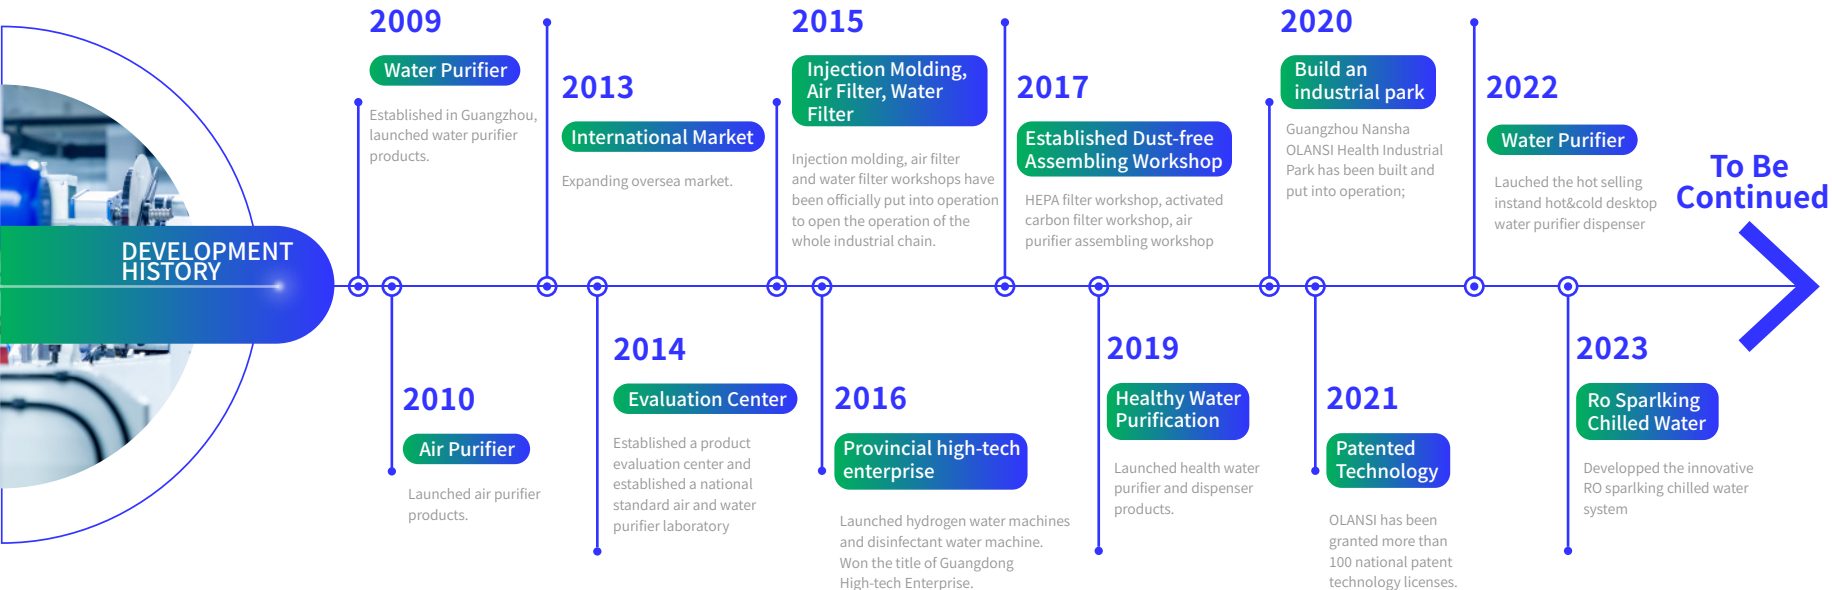

## 01 COMPANY PROFILE

Water, air and sunlight are the three essential elements of human survival, none of which is indispensable. However, with the development of economy, the global ecological environment has been destroyed, and the water quality and air quality that people depend on cannot be guaranteed, threatening human health. In such a social environment, OLANSI was founded. In order to protect human health, the founder, together with experts and scholars from various scientific research institutions, is committed to developing products for purifying water and air.

Since its establishment in 2009, OLANSI has adhered to the concept of health and environmental protection, and has not forgotten its original intention for the past 13 years. Adhering to the brand concept of “purifying with science and technology and people-oriented”, it is leading the modernization development of the brand with smart technology; with the brand vision of becoming a leading health appliance manufacturer vendor in the world, it is constantly moving forward towards the goal.

## 02 DEVELOPMENT HISTORY

# A

## 04 ENTERPRISE HONORS

- Vice Chairman Unit of Water and Air Purification Committee of China International Association for Promotion of Science and Technology
- Member Unit of the 4th Council of the National Association of Health Industry and Enterprise Management
- High-tech Enterprises in Guangdong Province
- Member Unit of Water Purification Equipment Association Of Guangdong Province
- Member of Guangdong Indoor Environmental Health Association
- Best Business Partner of European Center Polska
- Member Unit of Jiangsu Indoor Environmental Purification Association
- Member Unit of Hubei Air Purification Industry Association
- Member Unit of Shandong Home Appliance Industry Association
- Top 10 Influential Brands in Health Industry
- Top 100 Brands in Water Purification Industry
- Outstanding Brands in Health Industry
- China' s Influential Brands in Health Industry
- Top 10 Professional Brands of China' s Environmental Appliances (Air Purifier)
- Unstoppable Award of the 14th China International Air Purification and Fresh Air System Exhibition (CAPE)
- Global Cool Award
- 400 GDP Large Flux Water Purifier Won Red Dot Design Award
- K09 Air Purifier Won Golden Plough Award for Independently Researched and Developed Technical Products
- K09 Air Purifier Won Red Star Design Award

Our service team is dedicated to meeting the needs of different customers or projects at home and abroad and providing tailored services for customers by using the complete IPD, R&D, design process. The company has a strong team of 600 employees, including more than 50 people in the R&D and technical teams. The team consists of the following professional departments:

#### Marketing Department

Special product manager leads the market research team to carry out product planning and promotion

#### R & D Department

A R & D team with more than 50 people and with professional designers for product design and development

#### Production Department

Include injection molding factory and multiple production lines

#### Evaluation Center

Follow up the whole process from the original procurement, trial production test and quality inspection control

#### Sales Department

Determine, evaluate and monitor the company's marketing strategy and measures

#### After-sales Department

Provide 24-hour consulting service, and provide one-year after-sales service for the whole machine.

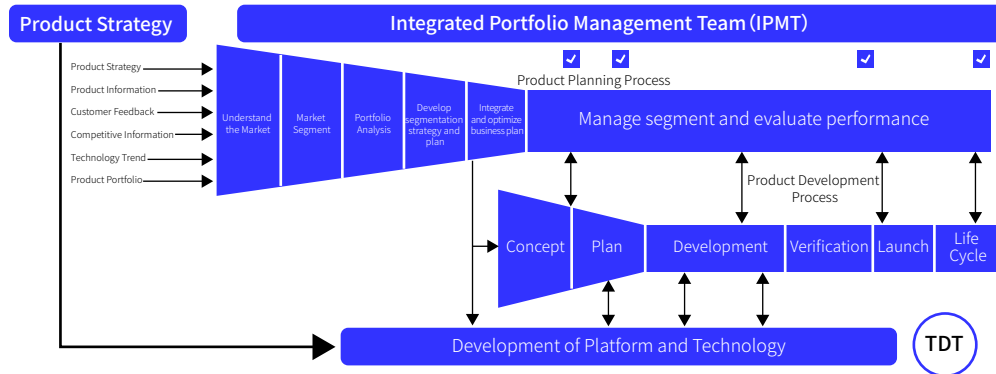

Investigation And Planning → R & D And Design → Mold Opening Production → Propaganda, Marketing And Sales → After-sales Service

# B

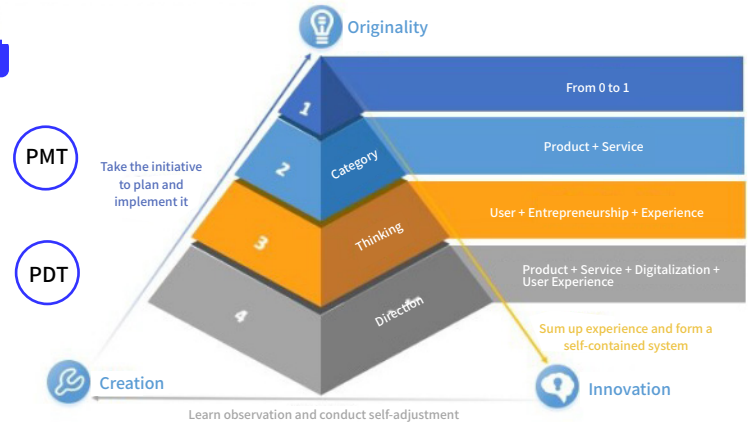

## 02 INNOVATION R & D

Based on user experience and cutting-edge international vision, the OLANSI Design Department has a deep insight into customer demand psychology, applies strategic thinking to product innovation and service design, AND strictly follows the IPD development process.

### Overall framework of R & D management

### Core of Product Innovation and Service Design

# B

## 03 CORE TECHNOLOGY

For many years, OLANSI has been committed to technical innovation and R & D in the field of water and air purification, maintaining the leading technical advantages in the industry. Relying on years of experience and technological innovation, OLANSI has obtained 28 national patented technologies such as hydrogen-rich device producing high concentration, carbon filter screen processing equipment, carbon filling device for filter screen and device for prolonging the service life of filter element, providing strong technical guarantee for the business development of the company, and further demonstrating the core technical advantages of our company in the field of water and air purification.

So far, OLANSI has more than 100 patents, including more than 40 patents for inventions and utility models, and a number of patents are being accepted.

# B

## 04 AUTHORITY CERTIFICATION

In order to ensure the high quality of products, OLANSI has always insisted on:

Obtaining a series of qualification certificates at home and abroad, such as: CE certification for export to EU, ROHS certification, UL certification for export to USA, ISO9001:2015 Quality Management System Certification, ISO14001 Environmental Management System Certification, High-tech Enterprise Certification, etc.

BSCI Certification

ISO14001 Environmental Management System Certification

CE Certification

CB Certification

TÜV Rheinland Certification

UL Certification

RoHS Certification

FDA Certification

FCC Certification

CARB Certification

NSF Certification

WQA Certification

# B

## 05 QUALITY CONTROL

### Control Quality Management From The Source:

There are several test rooms to strictly manage quality control, including reliability performance laboratory, salt spray room, mold transportation laboratory, type laboratory, parts laboratory, clean room, physical and chemical room, water taste room, sample room, CADR laboratory and aging laboratory.

# B

## 06 COOPERATION CUSTOMERS

For many years, the unremitting pursuit of quality makes OLANSI become a close partner of many enterprises. OLANSI has always adhered to common development and shared benefits with its partners. In the future, OLANSI will continue to strengthen mutual trust, consolidate friendship and deepen cooperation with each customer to achieve long-term win-win cooperation.

# B

## 07 INDUSTRIAL PARK

Established in 2009 in Panyu,Guangzhou, and Nansha new industrial park put into operation in March 2020,covering an area of more than 20,000 square meters and a building area of more than 60,000 square meters. The park has 4 modern, intelligent and scientific and technological new workshops and office buildings, 5 air purifier production workshops, independent filter element production workshops, 2 automatic filter screen workshops, 3 water machine production workshops and 2 injection molding plants, which can achieve a monthly production capacity of 200,000 air purifiers and 100,000 water purifiers. OLANSI Health Industry Science Park will introduce more advanced international production equipment, more outstanding international talents and more advanced concepts. Relying on excellent conditions such as business zone, dust-free production workshop, advanced production equipment, living and working facilities, it will build a more standard and standardized health industry science park.

# B

## 08 INTELLIGENT WORKSHOP

Driven by Industry 4.0, Internet of Things, Big Data and other technologies, hardware innovation, software upgrade, software and hardware integration continue to evolve, and intelligent manufacturing has become an irresistible mainstream!

Injection Molding  
Workshop

Air Purifier  
Assembling Workshop

Automatic HEAP &  
activated carbon  
Filter Workshop

Water Purifier  
Assembling Workshop

Water Filter Element  
Workshop

Other Healthcare  
Devices Assembling  
Workshop

# B

## 09 EVALUATION CENTER

The Evaluation Center is a platform for product research and performance evaluation built by OLANSI, with multiple instruments and equipment. The testing capability of the product meets the standards of the testing agency. Guarantee product quality and performance. It has standard CADR laboratory, physical and chemical engineers, electronic evaluation engineers, mechanical evaluation engineers and material evaluation engineers, who can test various performance parameters of parts and complete machine. Executive standards:

International standards, industry standards, enterprise standards. The company often conduct technical exchanges with industry famous manufacturers.

There are several test rooms, including reliability performance laboratory, salt spray room, mold transportation laboratory, type laboratory, parts laboratory, clean room, physical and chemical room, water taste room, sample room, CADR laboratory and aging laboratory.

## 02 Product Line-Healthy Drinking Water

▲ W16

▲ W15

▲ W12

### All-in-one water purifier

Water purifier W12/W16/W15

Purifying and drinking two in one

Ro reverse osmosis technology

Rich in mineral elements

3-second heating

Sixth-section water temperature

Purification and waste separation of water tank

WIFI (optional)

### Product parameters

Product model	W12	W16	W15
Rated voltage/ frequency	110/220V-50-60Hz	110/220V-50-60Hz	110/220V-50-60Hz
Rated power	1500/2100W	1500/2100W	1500/2100W
Rated heating power	1500/2100W	1500/2100W	1500/2100W
Power consumption	0.1kw/24h	0.1kw/24h	0.1kw/24h
Hot water production capacity	18L/h(≥90°C)	18L/h(≥90°C)	18L/h(≥90°C)
Flow rate of water production	7.8L/h	7.8L/h	7.8L/h
Operating pressure	0.4-0.8MPa	0.4-0.8MPa	0.4-0.8MPa
Applicable water source	Municipal tap water	Municipal tap water	Municipal tap water
Applicable water temperature	4-38°C	4-38°C	4-38°C
Product size	450x200x387mm	450x200x387mm	450x200x387mm

## 01 Product Line-Air Purifier

### Air purifier

KJ200G-A5A/A5B

Removal of  
PM2.5

Multiple  
filtration

Double control  
operation

Ultra-silent  
operation

WIFI  
(optional)

UVC sterilization

### Product parameters

Product model	KJ200G-A5A	KJ200G-A5B
Rated voltage	110/220V	110/220V
Rated frequency	50Hz~60Hz	50Hz~60Hz
Product usage	Removal of particulate matter, gaseous pollutants, microorganisms and other pollutants in the air	
Purification mode	Composite filter screen	
Rated power	45W	45W
Particulate CADR	220m <sup>3</sup> /h	220m <sup>3</sup> /h
Particulate matter CCM	P1	P1
Energy efficiency grade	Qualified grade (particulate matter)	
Noise	18~57dB(A)	18~57dB(A)
Applicable area	14-24 m <sup>2</sup>	14-24 m <sup>2</sup>
Product size	330x175x433mm	330x175x433mm
Product weight	4.1Kg	4.1Kg

# Bring home with forest air

## 01 Product Line-Air Purifier

### Air purifier

KJ500G-A6

Removal of  
PM2.5

Multiple  
filtration

Ultra-silent  
operation

WiFi  
(optional)

Release of  
anions

UVC sterilization

### Product parameters

Product model	KJ500G-A6
Voltage	110-220V
Rated power	50W
PM2.5 CADR	500m <sup>3</sup> /h
HEPA Grade	H13 (nominal)
UV (optional)	UVC LED
Noise(upper gear)	60dB(A)
Applicable area	35-60m <sup>2</sup>
Product size	587x300x300mm
Product weight	5kg

### Ecological Super Ion

# Make a healthy SPA for your skin

# C

## 01 Product Line-Air Purifier

### Air Humidifier And Sterilizer

A11

Ultrasound humidifier

Removal of virus & PM2.5

Multiple filtration

Ultra-silent operation

### Product parameters

Product model	A11
Rated Voltage	110/220V
Rated Frequency	50-60Hz
Product Usage	Humidification and disinfection of air
Rated Power	28W (with electrolytic mode) 21W (pure humidification)
Humidification Efficiency	Class A
Water tank Capacity	8L
Noise	42dB(A)
Humidification Amount	360ml/h
Product Size	210x210x464mm
Product Weight	2.3KG

Purify air and care for health

# C

## 01 Product Line-Air Purifier

### Air purifier

KJ100G-A12A/A12B

Removal of  
PM2.5

Multiple  
filtration

Ultra-silent  
operation

WiFi  
(optional)

### Product parameters

Product model	KJ100G-A12A	KJ100G-A12B
Input voltage	110/220V-50~60Hz	110/220V-50~60Hz
Rated power	7.5W	11W
Particulate CADR	100m <sup>3</sup> /h	100m <sup>3</sup> /h
Particulate matter CCM	P1	P1
Energy efficiency grade	Qualified grade (particulate matter)	
Noise	18~53.5dB(A)	18~53.5dB(A)
Applicable area	6-15m <sup>2</sup>	6-15m <sup>2</sup>
Product size	200x200x313mm	200x200x350mm
Product weight	1.8kg	1.8kg

## 01 Product Line-Air Purifier

### Air purifier

KJ110G-A17A/A17B

Ultrasound humidifier

Removal of PM2.5

Multiple filtration

Release of anions

Ultra-silent operation

WIFI (optional)

### Product parameters

Product Model	KJ110G-A17A	KJ110G-A17B
Rated Voltage	110/220V	110/220V
Rated Frequency	50-60Hz	50-60Hz
Product Usage	Removes pollutants such as particulate matter, gas pollutants and microorganisms in the air.	
Method of Cleaning	1.Composite filter 2.Humidifying function	Composite filter
Rated Power	21W	21W
Particulates CADR	110m <sup>3</sup> /h	110m <sup>3</sup> /h
Noise	18-53.5dB(A)	18-53.5dB(A)
Applicable area	8-15 m <sup>2</sup>	8-15 m <sup>2</sup>
Product size	184.7x196x307mm	184.7x196x307mm
Weight	2.2 Kg	2.23kg

## 01 Product Line-Air Purifier

### Air purifier

K05A/K05B

Removal of PM2.5

Release of anions

Multiple filtration

Ultra-silent operation

### Product parameters

Product model	K05A	K05B
Power supply voltage	DC5V/12V, 300-500mA	DC5V/12V, 300-500mA
Filter element	HEPA filter element (imported material)	HEPA filter element (imported material)
Filtration mode	Active suction interception and filtering	Active suction interception and filtering
CADR value	8m <sup>3</sup> /h	8m <sup>3</sup> /h
Input power	1.8W	1.8W
Energy efficiency grade	Qualified grade	Qualified grade
Noise	39.2dB(A)	39.2dB(A)
Scope of application	Interior air purification	Interior air purification
Product size	74x74x158mm	74x74x158mm

## 01 Product Line-Air Purifier

### Air purifier

KJ160FK01A/K01B/K01C

Removal of PM2.5

Multiple filtration

Release of anions

Ultra-silent operation

Double control operation

Ultraviolet sterilization

WiFi (optional)

### Product parameters

Product model	KJ160FK01
Rated voltage	110/220V
Rated frequency	50-60Hz
Rated power	40W
Noise (low speed)	≤20.4dB
Anion concentration	1000 million/CM <sup>3</sup>
Clean air volume of particulate matter (CADR)	160m <sup>3</sup> /h
Accumulated purification amount of particulate matter	P1
Particle purification efficiency grade	High efficiency grade
Formaldehyde clean air volume (CADR)	52 m <sup>3</sup> /h
Applicable area	10-25 m <sup>2</sup>
Recommended replacement interval of filter screen	6 months
Net weight of product	4.7KG
Sensor	Oder Sensor
Product size	330x180x505mm
Purification mode	Cold catalyst filter screen/ honeycomb activated carbon filter screen/ antibacterial cotton filter screen HEPA high efficiency filter screen/ anion release/ ultraviolet sterilization

## 01 Product Line-Air Purifier

### Air purifier & Humidifiers

KJ200G-K02B

Ultrasound humidifier

Removal of PM2.5

Multiple filtration

Release of anions

Ultra-silent operation

### Product parameters

Product name	K02
CADR	200m <sup>3</sup> /h
Noise(Low Speed)	21.6 dB(A)
Applicable Area	14~24m <sup>2</sup>
N.W	6.5kg
Humidification	Ultrasonic humidification
Sensor	Oder Sensor
Product Size	360x195x565mm
Method of Cleaning	Cold Catalyst Filter + Cellular-Activated Carbon Filter High Efficiency HEPA Filter + Sterilizing UV light + Anion Purifier

## 01 Product Line-Air Purifier

### Air purifier

KJ300FK06A / KJ320FK06C

Intelligent regulation    Removal of PM2.5    Multiple filtration    Release of anions    Ultra-silent operation    Double control operation    Ultraviolet sterilization    Photosensitive induction    WIFI (optional)

### Product parameters

Power supply voltage/ frequency	110/220V-50-60Hz	Applicable area	22-38 m <sup>2</sup>
Rated power	80W	Net weight of product	8.0KG
Noise (low speed)	≤29.4dB	Gross weight of product	11.0KG
Anion concentration	20 million/cm <sup>3</sup>	Product size	370x195x650mm
Clean air volume of particulate matter (CADR)	320 m <sup>3</sup> /h	Package size	433x26 1x720mm
Accumulated purification amount of particulate matter	P4	It is suggested that the replacement cycle of No.1 filter screen shall be 2 years, and that of No. 2 and No. 3 filter screens shall be 6 months.	
Particle purification efficiency grade	Qualified		
Formaldehyde clean air volume (CADR)	80 m <sup>3</sup> /h	Purification mode	Front filter screen, cold catalyst filter screen, special effect formaldehyde removal filter screen, antibacterial cotton filter screen, HEPA high-efficiency filter screen, anion purification
Cumulative purification capacity of formaldehyde	F4

### Product parameters

Product model	KJ350FK07A
Rated voltage	110/220V
Rated frequency	50~60Hz
Rated power	85W
Noise (low speed)	≤29.5dB
Anion concentration	10 million/cm <sup>3</sup>
Clean air volume of particulate matter (CADR)	350m <sup>3</sup> /h
Formaldehyde clean air volume (CADR)	81.5m <sup>3</sup> /h
Cumulative purification capacity of formaldehyde	F4
Formaldehyde purification energy efficiency grade	High efficiency
Applicable area	24~42m <sup>2</sup>
Recommended replacement interval of filter screen	2 years for No.1 filter screen and 6 months for No.2 and No.3 filter screens
Net weight of product	9.8KG
Product size	400x200x600mm
Purification mode	Front filter screen, cold catalyst filter screen, honeycomb activated carbon filter screen, antibacterial cotton filter screen, HEPA high-efficiency filter screen, ultraviolet lamp sterilization, anion purification.
