International For Modern
Industries Company

WHO WE ARE

Int. For Modern Industries Co. Ltd. (IFMI), since established in 1985 has adopted the concept of having and executing the most modern systems in its field of business with highest quality and **"safety first "** motto as first priority.

since the nineties of the last century when it was involved in the business of communications and security systems besides the activity of contracting after the great success in executing complete low current systems in big governmental departments, hotels and towers.

IFMI has become a good title in the Middle East market as a trusted and specialized contracting company for turn key projects and complete solutions of buildings including the supply of the white cement as an authorized distributor all-over the kingdom besides building raw materials and including planning, design, construction together with all types of finishes e.g. facade externally by GRC, Precast elements , Glass and Metal Cladding besides all low current systems internally such as Most Modern Telephone Centrals, CCTV, ACCESS, Fire & Burglar Alarm, Sound, TV, ...etc in addition to providing all equipment and systems required for big hospitals in order to be qualified for getting JCI Certificate ,relying on the long technical experience and high education of the staff and technicians with training in addition to the big ex. stock while Safety and Quality have been always in the front of priorities and practices.

OUR MISSION, VISION & VALUES

IFMI's motto is to ensure that Clients are **hassle-free** from the inquiry stage and even after completion of all contractual obligations.

1 OUR MISSION

To be the first choice as a reliable company for full solutions providing in the gulf region.

2 VISION

Offering complete range of solutions in our field of business using latest technology, highly qualified and competent workforce to ensure quality and timely delivery to our clients.

3 OUR VALUES

- **Ensuring Customer Satisfaction** by achieving %100 of all commitments without any deviations.
- **Maintaining Quality requirements** in work at all areas, stages and times.
- **Fair and equal opportunities to all employees.**
- **Continual Improvement** by following the Feedback from all sources effectively in all areas of work. Together with offering all support and fair opportunities to all employees.
- Following all local and international safety, health & Environment regulations at all times

SECURITY SYSTEMS SECTOR

DISTRIBUTION

IFMI's policy, being sole agent and authorized distributor, is to have available (existing) stock, in the main stores of all adopted goods in order to satisfy the needs of the customers immediately without delay. However, in some cases for big or special request immediate arrangements are made to satisfy such requests.

From the main stores, goods are sold directly to ACGs customers via its offices, showrooms/sales centers and sub-distributors which are located in the main cities .

Now, IFMI is sole agent and authorized distributor for CCTV cameras, Telephones/Telephone centrals, Video door phones, Remote Monitoring, Access Control, Alarm.....Systems.

IFMI imports goods from the whole world especially from Taiwan, Japan, Korea, Hong Kong, Malaysia, USA & Europe.

MARKETING

This is also an important part of ACGs strong structure as all types of marketing means are used such as having showrooms/ selling centers in the main cities / markets, participating in the local and international exhibitions (Saudi Build, Telecommunications & Security Fair, Dubai Intersec...etc), advertising in main newspapers and magazines, sponsoring seminars, daily visits to the customers sites by professional salesmen/engineers, responding to the customers queries by faxes and telephone calls, advertisements on ACGs vehicles which wander in all cities and far areas .

the most important means which is good relations and execution by friendly professional teams resulting in good reputation and then more business via the customers themselves..

OUR SERVICES

With long successful history in various sectors especially Security and communications systems supported by long experience and wide knowledge of the company staff including certificates in Commercial, Electrical, Mechanical and Electronic Engineering in addition to training certificates from International firms in Fire and Safety, Communications, Quality (e.g.BS Institute for ISO 9000), we are always ready to answer questions and suggest solutions free of charge especially for our customers.

SOLUTIONS

With long successful history in various sectors especially Security and communications systems supported by long experience and wide knowledge of the company staff including certificates in Commercial, Electrical, Mechanical and Electronic Engineering in addition to training certificates from International firms in Fire and Safety, Communications

TECHNICAL SUPPORT & SOLUTIONS

Our engineers and technicians are always ready to respond positively to any request from our customers in order to have best solutions, expand existing system to add more items or integrate with other systems. Just a simple contact to our telephones, faxes or e-mails an immediate appropriate response will follow.

MAINTENANCE

The maintenance is mainly for our products as we have existing stock of spare parts, trained and experienced technicians and goods. So we can repair and compensate the required components and complete items in order to assure the continuous operation of our systems as a part of Safety and Quality requirements.

UPGRADING & MODIFICATIONS

With our experience and proficiency in addition to the available stock of goods we can upgrade and develop old /existing systems to suit additional needs and expansions.

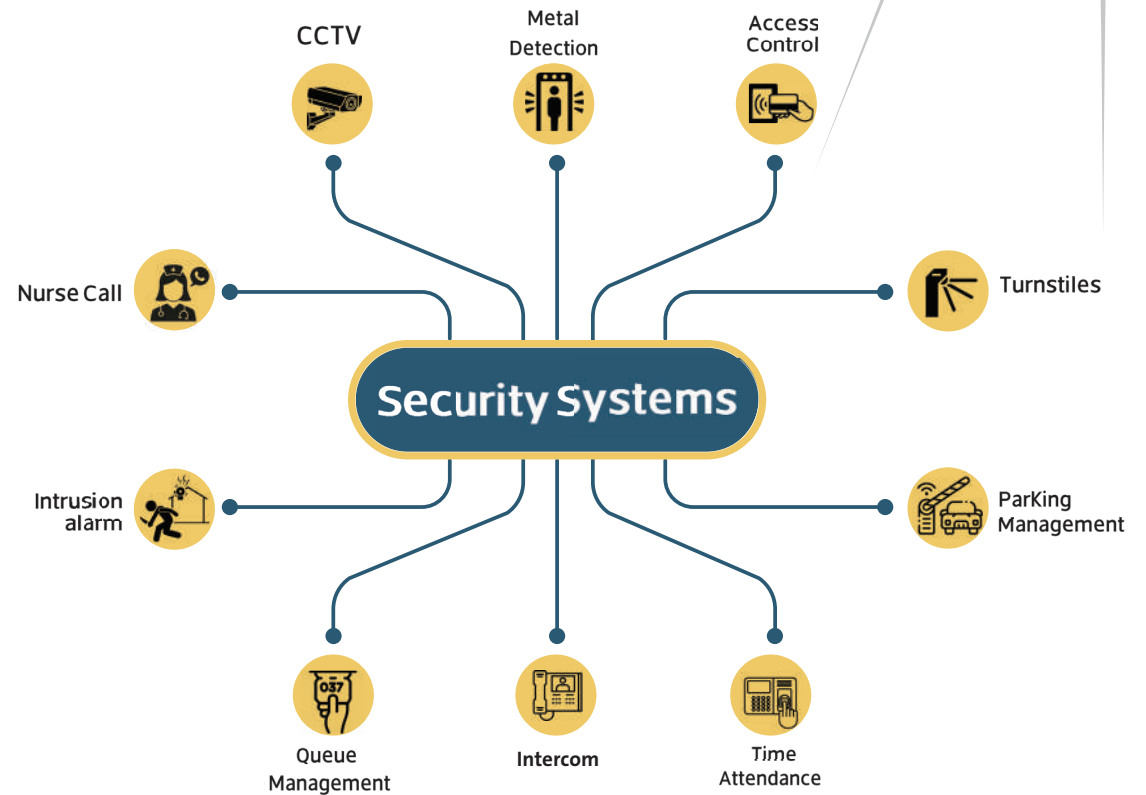

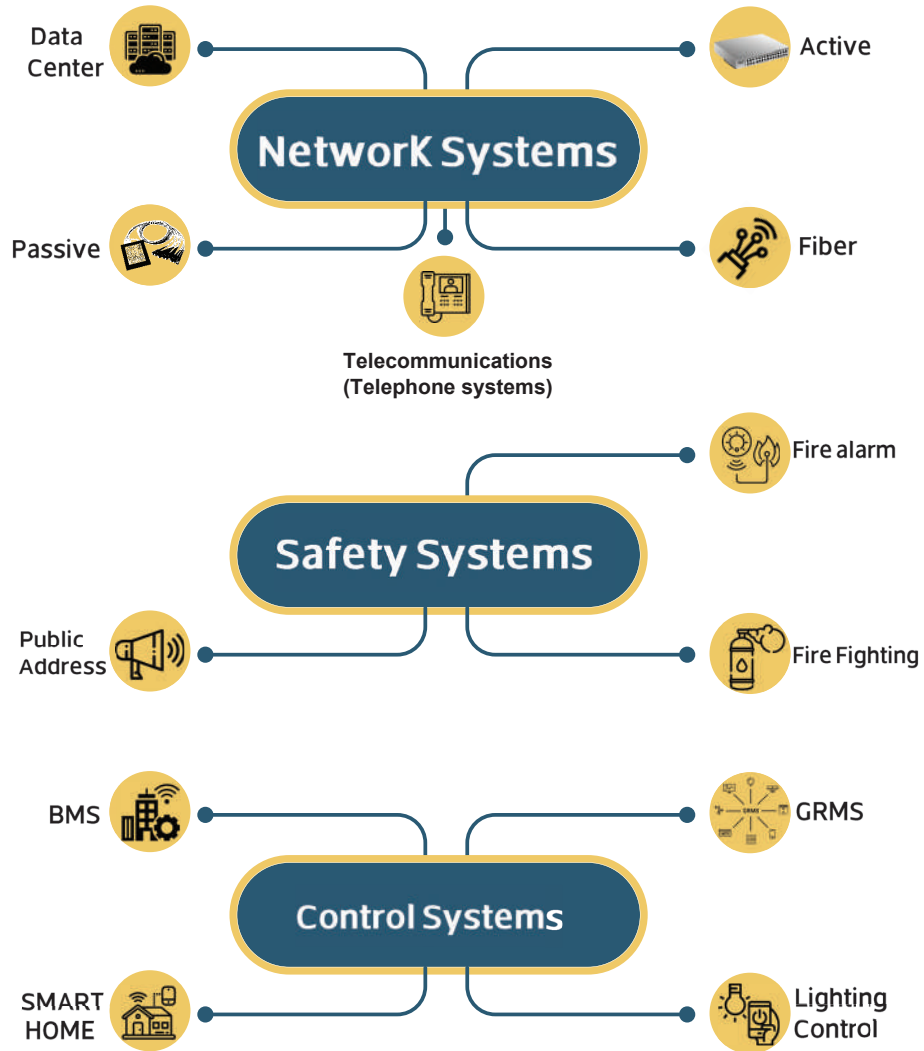

We have already upgraded and changed systems in big firms by modifying old existing systems and adding more sections to be working as one big system.

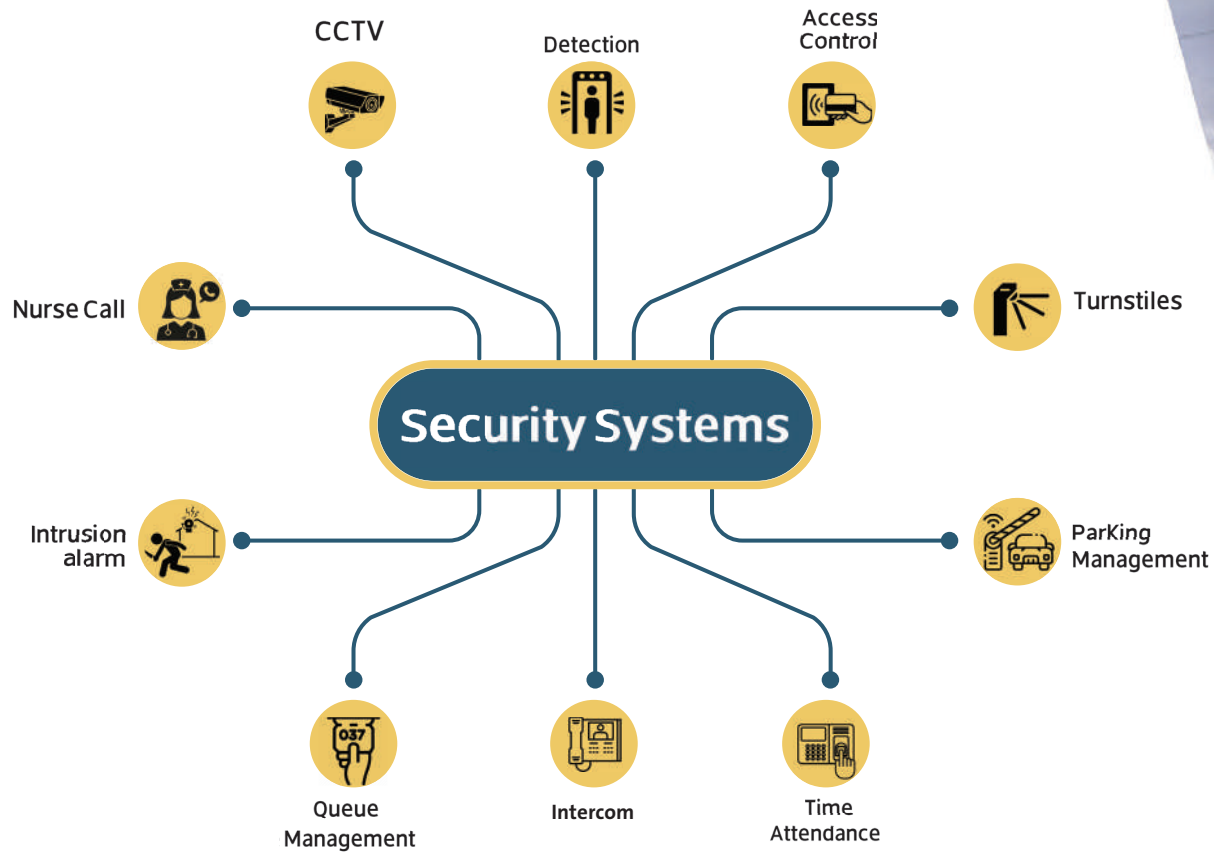

SPARE PARTS

Being the distributor of Global Brands, we have stock of spare parts which help with the daily cotntact with manufacturer and continuous (monthly and weekly) shipments to repair or change the failed components due to various reasons including age, shorts, improper actions, etc.
